SHAIK ZEESHAN

Full-Stack Developer — React.js & Node.js Specialist

📞 +91 6305083927 ✉ shaikzeeshan999@gmail.com 🌐 shaikzeeshan.dev 🔗 LinkedIn 🔗 GitHub </> Algora

PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with expertise in React.js, Next.js, and Node.js. Top 1% open-source contributor on Algora with $2,190+ in bounty earnings from 20+ solved challenges. Proven track record of building scalable applications with performance optimization techniques. Passionate about creating innovative solutions and expanding technical expertise.

OPEN SOURCE CONTRIBUTIONS

Algora Bounty Hunter **2024 - Present**

Multiple Open Source Projects *Algora Profile*

- Earned $2,190+ by solving 20+ complex bounties across TypeScript, Rust, and Go projects
- Major contributor to screenpi.pe with 26 contributions, focusing on AI provider settings and timeline optimization
- Contributed to Cal.com (35.4K+ stars) and other high-impact open source projects
- Specialized in performance optimization, UX improvements, and full-stack feature development

PROFESSIONAL EXPERIENCE

Full-Stack Developer Intern **April 2023 - July 2023**

Weframetech *Remote*

- Developed responsive web applications using React.js and Node.js, achieving 40% improved user engagement and 25% faster load times
- Implemented state management with Zustand and React Query, reducing API calls by 35% for 10,000+ concurrent users
- Led cross-functional collaboration, consistently delivering solutions 15% ahead of project deadlines

FEATURED PROJECTS

Anime-Next — Full-Stack Application

Next.js, TypeScript, GraphQL, OAuth *GitHub*

- Built comprehensive anime/manga discovery platform serving 1,000+ users with advanced tracking capabilities
- Implemented SSR and React Server Components achieving 60% faster page loads through intelligent caching
- Integrated OAuth authentication and optimized GraphQL queries for efficient third-party API data fetching

GoodGit — CLI Development Tool

Node.js, Commander.js, SSH *GitHub*

- Engineered CLI tool for managing multiple Git configurations, reducing developer setup time by 80%
- Implemented SSH authentication with Commander.js framework for secure user management

TECHNICAL SKILLS

Programming: TypeScript, JavaScript, Python, Golang, Rust

Frontend: React.js, Next.js, HTML5, CSS3, TailwindCSS, Responsive Design

Backend: Node.js, Express.js, GraphQL, RESTful APIs, Microservices

Database: PostgreSQL, MongoDB, Redis, Query Optimization

Tools: Docker, Git, SSH, Postman, Figma, Neovim, CI/CD

Specialties: Performance Optimization, SSR, State Management, Authentication

EDUCATION

Bachelor of Engineering in Computer Science **2024**

Lords Institute of Engineering & Technology *Graduated*

KEY ACHIEVEMENTS

Open Source Contribution: Earned $2,190+ from 20+ Algora bounties, ranking among elite contributors

Performance Expert: Achieved 60% faster page loads through SSR and caching implementations

High-Impact Contributor: 26 contributions to screenpi.pe, major contributor to Cal.com (35.4K+ stars)
